

Alcast is proud to announce that certification to the international [ISO 9001:2008](#) Quality Standard in manufacturing and casting aluminum products.

[ISO](#)

is a family of standards for quality management systems. ISO 9001:2008 requirements include:

- A set of procedures that cover all key processes in the business;
 - Monitoring processes to ensure they are effective;
 - Keeping adequate records;
 - Checking output for defects, with appropriate and corrective action where necessary;
 - Regularly reviewing individual processes and the quality system itself for effectiveness;
- and
- Facilitating continual improvement*

Our quality process certification reflects Alcast's continuing mandate towards quality, efficiency (including our [Lean Manufacturing](#) initiative) and sales.
